

## DIGITAL TRANSITIONING FOR REGULATORY AGENCIES

All Australian agencies require a Digital Transformation Plan by September 2015, setting out how and when the service will adopt the Digital Service Standard. Fifth Ocean Technologies has 10 years of expertise in delivering solutions for regulators in Australia and overseas.

### ENSURING SUCCESSFUL TRANSFORMATION

Digital transitioning can be problematic. Fifth Ocean Technologies acts as your specialist digital partner to remove risk and streamline the entire transition from strategy to process, technology and people.

1. Our streamlined technical solutions and implementation process designed to empower your organisation to plan, migrate, merge and manage online and offline content without disruption to existing practices.
2. Our application development environment designed to simplify and enhance your workflows, interactions visibility and efficiency and user experience.
3. Our SmartForms technology and turnkey/off-the-shelf solutions for intra and extranets that address specific needs.
